

## Count on ASI SOLUTIONS to meet your future goals

We are committed to helping you keep pace with the ever-changing technology of the machine tool industry.

### Service

From routine maintenance to emergency repairs, we do whatever it takes to keep your operation running smoothly.

### Rebuild & Retrofit

We have the expertise to rebuild your existing equipment, restoring the accuracy to original O.E.M. specs. Or we can retrofit the latest electronic controls onto existing machines.

### Used Equipment Sales

We sell any make or model – manual or CNC. We can locate a specific machine or suggest one that will meet the needs of your particular application.

### Accessories

Tables, indexers, toolholders, chucks, conveyors and more.

### Equipment Installation

We'll make sure your equipment meets O.E.M. specifications.

### Plant Relocation Services

Proper rigging, transportation and reinstallation will get your equipment back into production with minimal hassles.

- Custom Machine Design

# Trusted service. Timely solutions.

ASI Machine Tool  
CNC SERVICE EXPERTS

## Trust ASI SERVICE for Maximum Efficiency

ASI provides professional service on all makes and models of machine tools. From routine maintenance to emergency repairs, we do whatever it takes to keep your operation running smoothly.

- 16 Field Service Engineers- with a combined 270 years of service experience
- Reasonable rates
- Emergency Repair/ Fast Response– most electronic and mechanical repairs can be done on-site. Larger repairs can be done in our 30,000 square foot headquarters.

*Electronic Controls* – Mitsubishi, Fanuc, GE, Allen Bradley, Yaskawa, Dyna Path, Miltronics and more

*Mechanical* – Repair of gear boxes, headstocks, thrust bearings, machine alignments and many other repairs can be performed in your facility. Rebuild/retrofit or bringing spindles, mill tooling and integral headstocks up to more exacting specifications can be done at ASI.

- Spindle Repair
- Milling & Live Tooling Repair
- Ballscrew Repair
- Precision Scraping

## PREVENTATIVE MAINTENANCE

Keep your equipment in top shape with preventative maintenance from ASI. We have flexible schedules available to minimize downtime. And we continually invest in training for our service engineers to expand their capabilities while making sure they meet the most stringent qualifications.

- Laser Calibration
- Ballbar Analysis
- Backlash Compensation
- Replace Lubricants
- Replace Filters
- Professional Inspection
- Spindle Clamp Force

## Your Partners in Productivity

ASI was formed in 1996 by Toby J. Frohlich and Jim Seshar. Together, they have 45 years of experience in the Machine Tool industry. Their continuing vision is to be more than just a service company – they become strategic partners with their clients to forge lasting relationships. The results speak for themselves, with thousands of satisfied customers.
